One Sala

An on line learning and teaching platform for those who want to do self-study and increase their knowledge everywhere through the Internet or other electronic devices such as smartphones and computers.

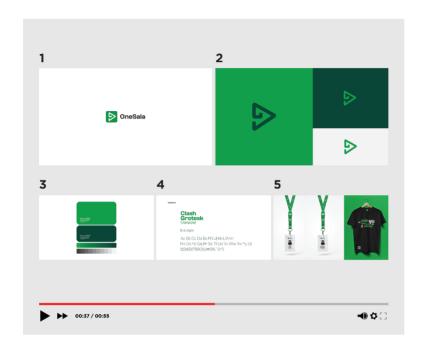

Kbeung team redesigned the brand identity of the OneSala App, we have modified and added some elements to the missing point of the existing brand identity.

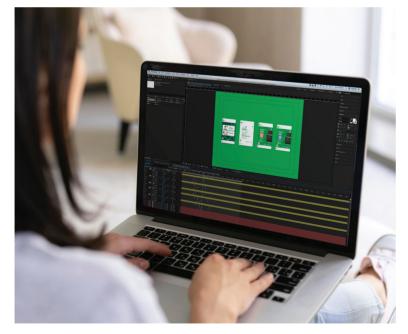

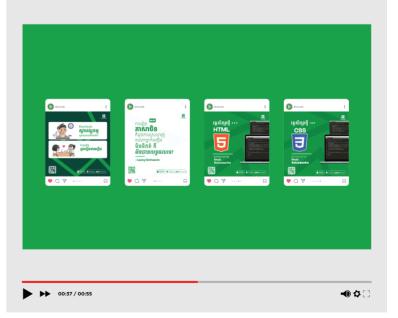

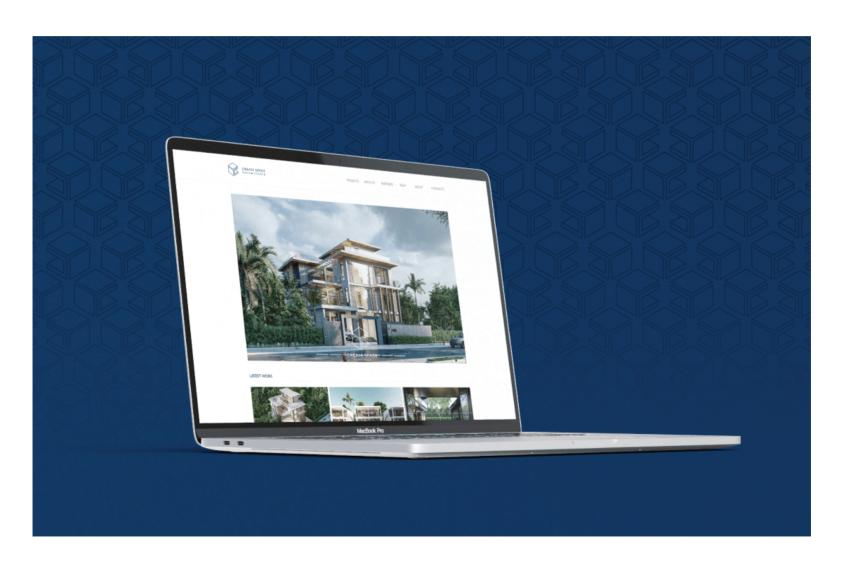

Motion 2D-Graphic Kbeung created a motion poster that displays the logo, uniforms, and student's name card, and also shows the process of application of OneSala.

Create Space

In 2021, we had a chance to reconfigure the Create SPACE Design & Construction brand identity. The first thing we did was to rework the iconic "geometry" symbol, with respect to their brand value and culture.

We redesign with a modern minimalist and creative negative space of the letter "C". This logo plays off the natural shape created by the threesquare boxes to create a 'C' for 'Create' in the negative space.

Good Time Relax Resort

You can see the right side, the tributary, kayaking, the landscape along the river, and an overview of the Resort.

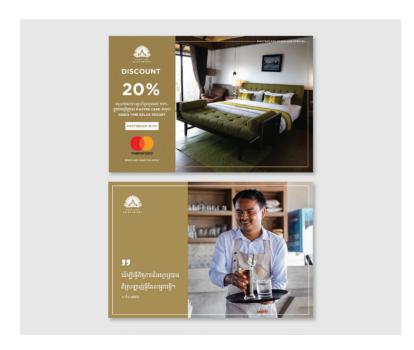

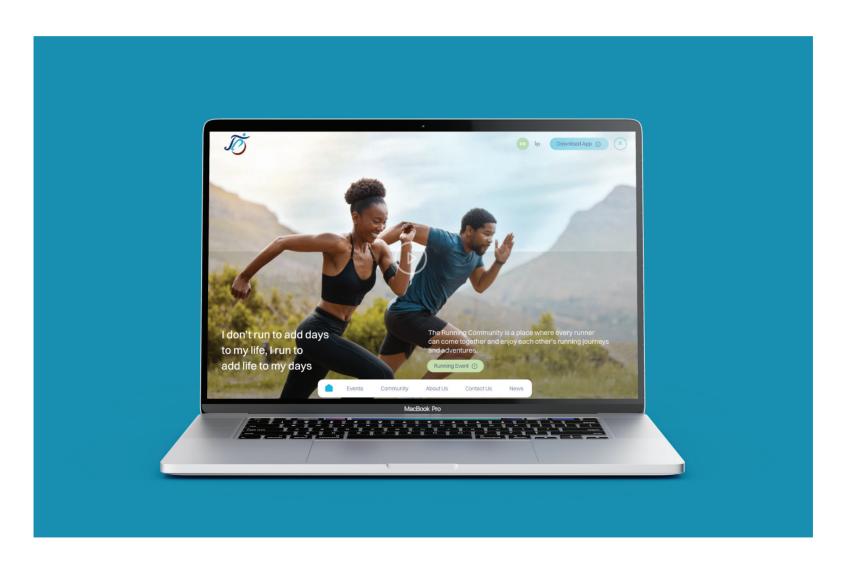

So, in this project, we make artwork, create content, and do strategic marketing. Especially we focus on social media platforms, for now, we manage the Facebook platform, TikTok platform, and Instagram platform.

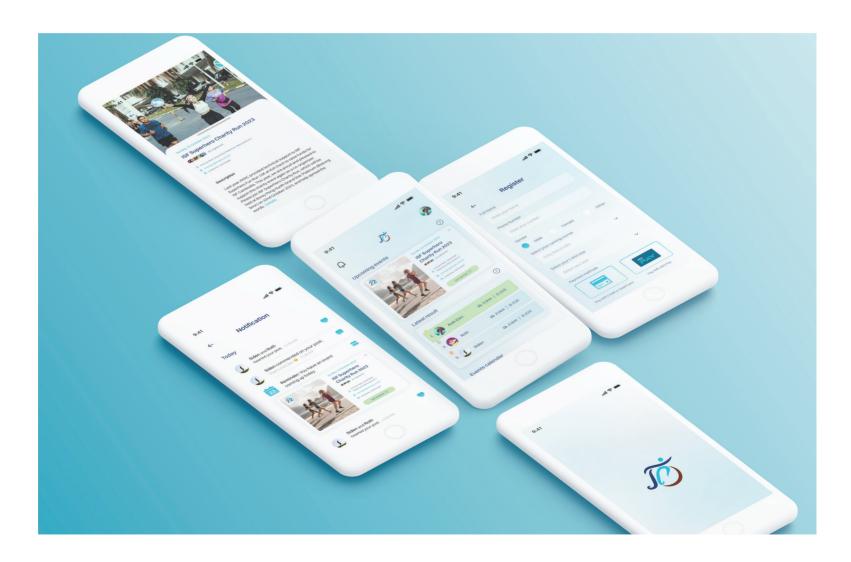

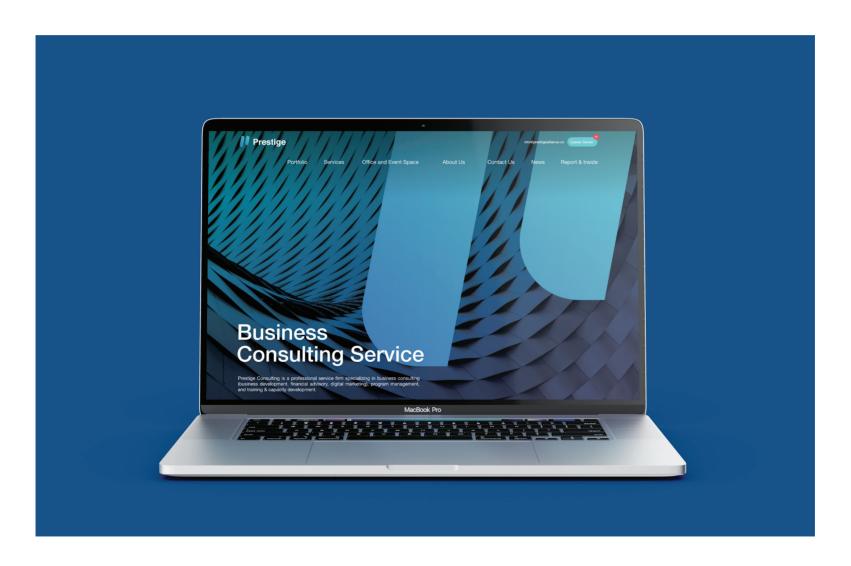

Phum Run or KKRC

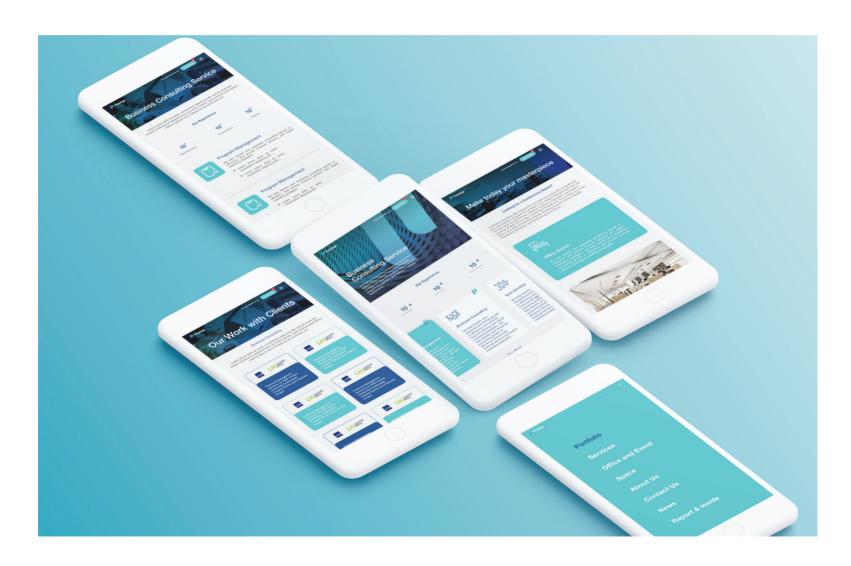

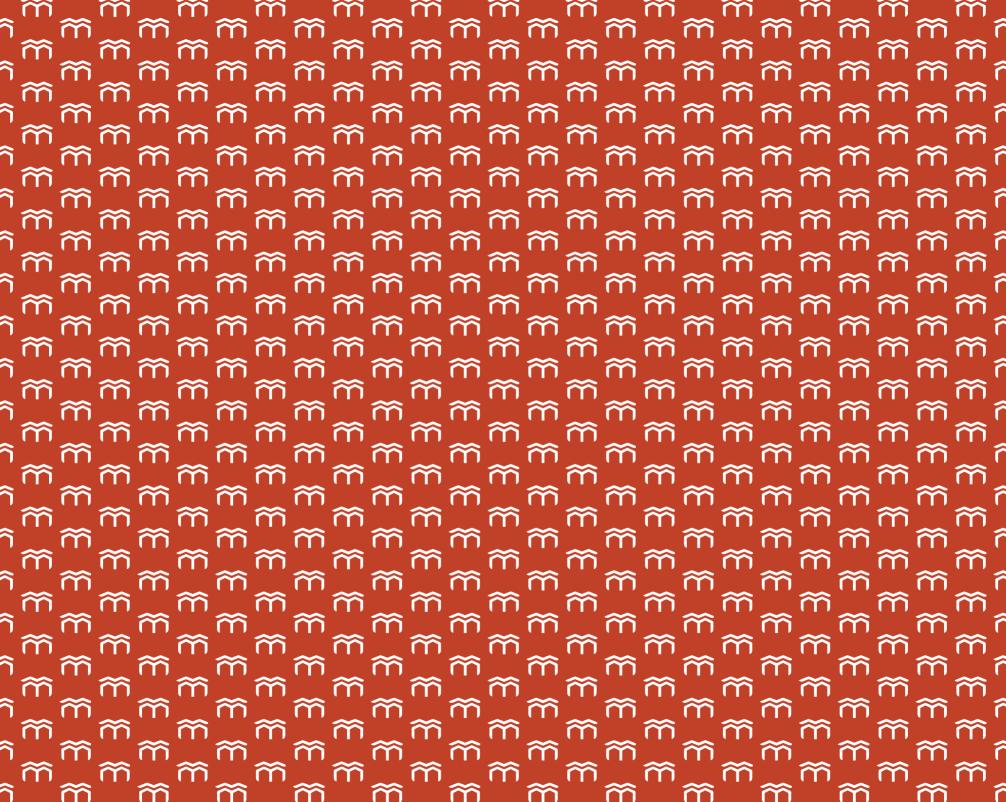

KKRC — The biggest and most vibrant running community in Cambodia!

Prestige Consulting
